2017 VW CRAFTER / MAN FUEL PICK-UP FITTING INSTRUCTIONS

i NOTE

The fuel tank **will** need to be removed to access the sender unit.

Cut the tip of the dome off, and deburr to reveal a hole in the auxiliary fuel supply port.

Connect the rubber fuel hose to the plastic elbow fuel supply port, using 9mm fuel pipe clip.

Insert the blue fuel pipe into the rubber and secure with a 9mm clip.

Route the remainder to the fuel metering pump, cut to length using a sharp knife or pipe cutter.

Connect in the normal manner, Figure 2.

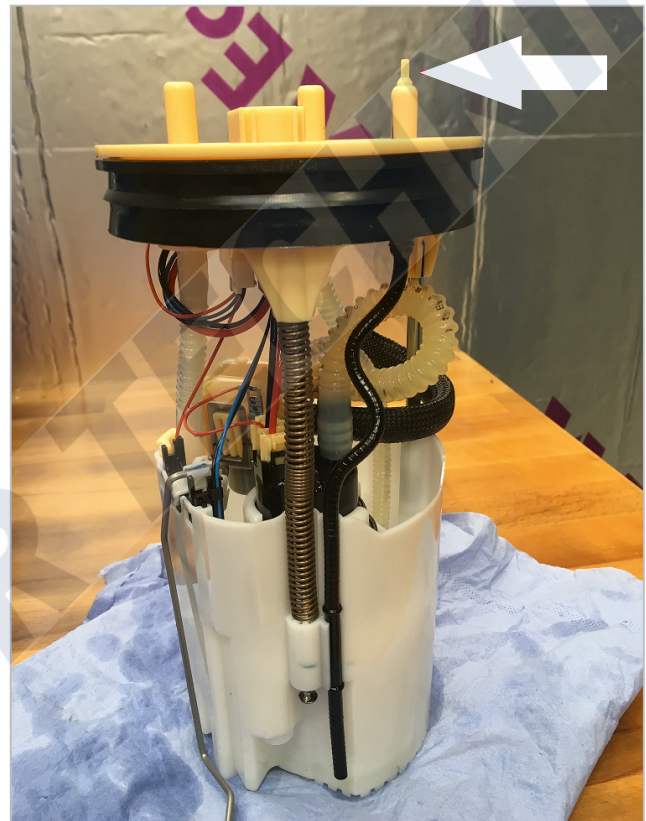

Figure 1

PART NUMBER	DESCRIPTION	QTY
